Possum Mounting Solutions Environmental Control

- Table Stands
- Floor Stands
- Flexible Arms
- Clamps
- Brackets
- Switch Mounting

Possum manufacture and supply a wide range of stable and secure mounting systems for a range of Possum products including environmental controllers, switches and intercoms. The range of telescopic, height adjustable, flexible, quick release mounts and secure stands are applicable to a variety of requirements including:

- Freestanding floor stands for correct height positioning next to beds or chairs.
- Sturdy table top stands
- Mounts, clamps and brackets for appropriate fitting for walls, wheelchairs, metal bed frames, tables, benches and poles all with various profiles (surfaces with an edge).

Assessment Installation Maintenance

As part of our comprehensive service, Possum provides a full onsite assessment of the users requirements, to ensure that the appropriate Assistive Technology (including the type and location of mounting systems) are supplied and professionally installed.

Optional ongoing yearly maintenance solutions are also available to ensure that the equipment is operating correctly, especially as users requirements can change over time.
