CHARGING THE COMBI 4

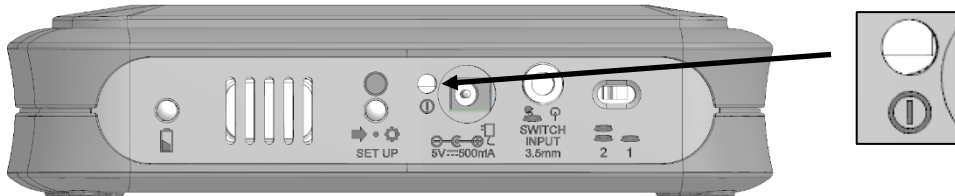

The Possum Combi 4 Box is designed to charge and operate from a single co-axial power supply unit supplied by Possum Ltd part number 034-982

Plug charger into here.

TURNING ON YOUR COMBI 4

1. Before switching on your Combi 4 it is advisable to plug in the Possum Mini Coaxial PSU to charge the battery
2. After a couple of minutes use a sim card eject tool or similar to push into the power hole on the side of the device.

Use tool here.
